ECO. 303Y1

The Economic History of Modern Europe to 1914

LECTURE NOTES SCHEDULE FOR 2001 - 2002

The following table provides a list of the lecture notes to be published online, on my Home Page, as indicated above, but only in Portable Document Format [pdf] which requires Adobe Acrobat Reader [see the course outline]. When the lecture has been published and so posted in pdf, its delivery date, in column 2, will be highlighted in blue and underlined. If the lecture notes are subsequently revised once more and reposted, the word 'revised' will appear under the date. You will, however, have to use the html version of this document, i.e. with the table below, to access those lectures, by so clicking on the highlighted titles. Such access is, of course, not available in pdf documents.

Most of the lectures sets pertain to just one weekly lecture, but a few of these numbered sets will cover two lecture dates. The dates below are those on which the actual lecture(s) was/were delivered. The relevant lecture notes, numbered as indicated in this table, and complete with tables, graphs, maps, technological illustrations (where appropriate), will usually be available within three days of the delivery of the lecture, i.e. by the end of that week. The topics in column 3 are taken from the detailed outline of the lectures:

<http://www.economics.utoronto.ca/munro5/303LECT.pdf>

Those students without internet access but only those who are enrolled in this course (and thus *only* those whose names appear on the class list) may purchase these lectures, below their real cost, at \$3.00 per lecture. They may be obtained from the Economics Department Library at 150 St. George Street, N107, from:

Mrs. Ursula Gutenberg: (416) 978 - 8623: econlib@chass.utoronto.ca

Mrs. Elisabeth Bicsardi: (416) 978 - 4622: bicserdi@chass.utoronto.ca
