2.- INTRODUCTION

World Business and Economic History (WBEH) is a course offered to the ARA group in the Grado de Administración y Dirección de Empresas (GADE), Grado de Economía (GECO) and Grado de Finanzas y Contabilidad (GFYC). This course is taught during the second semester of the first year. It is aimed at examining the evolution and transformation of the world economy. To the prospective students of the Grado de Administración y Dirección de Empresas (GADE), Grado de Economía (GECO), and Grado de Finanzas y Contabilidad (GFYC) the World Business and Economic History (BEH) course provides the possibility of exploring how the current world economy has been shaped.
The course is structured around the following topics:

- The Preindustrial World;
- The Malthusian Trap;
- The Age of Exploration;
- The Industrial Revolution;
- The birth of the business enterprise;
- Industrialisation and the rise of the West (and Japan);
- The Great Divergence;
- Globalisation, 1870s-1914;
- The ‘Big Business’;
- The Great Depression;
- The Golden Age of economic growth, 1950-73;
- The Multinational Corporations (MNCs);
- The limits to economic growth;
- The ICT revolution;
- Globalisation, 1970s-today;
- The Global Supply Chain;
- The Global Corporation;
- BRICs and Emerging Economies.

Basic skills acquired with the course:

- Knowledge of some relevant historical episodes and its implications on the shaping of the current world economy.
- Understanding of the main forces of economic growth in the long run, and how economic and non-economic factors have interacted over time.
- Capacity to analyse economic aspects.

3.- METHODOLOGY

The teaching methodology adopted is a balance between theoretical lectures and practical classes, seminars, in which students are expected to actively participate and interact, solve exercises, prepare oral presentations, and engage in the learning experience provided with this
course. The course consists of a weekly lecture and seminar. Lectures are simply a “discourse on a particular subject given to an audience” (Collins Dictionary for the 21st Century). Lecture notes will be weekly uploaded to the Aula Virtual. Lecture notes are the starting point, not the end point of the learning process. Students who centre their study on the lecture notes will find difficult to excel in this course. To supplement the lectures and lecture notes, students are expected to make use of the readings provided via the Aula Virtual.

Seminars can be defined as a “small group of students under the guidance of a tutor to exchange information or discuss theories...” (Collins Dictionary for the 21st Century). Seminars are thus aimed at encouraging discussion and critical thinking. Notes, readings, documentary films, problem-solving exercises, questionnaires, and data sets will be uploaded to the Aula Virtual prior to each seminar. Students are expected to make use of all these materials to prepare for the seminar. Seminars are aimed at acquiring a solid understanding of theoretical concepts, promoting participation, and enhancing basic skills (i.e. reading, speaking, writing). Students are encouraged to form study groups. Cooperation and teamwork provides you with the opportunity to exchange ideas/views that will improve your understanding of the subject.

Lastly, creating a respectful atmosphere in lectures and seminars is crucial to enjoy the learning experience provided with this course. For this purpose, mobiles phones should be switched off during lectures and seminars. Consumption of food is not permitted in lectures or seminars. Smoking is prohibited in lectures or seminars. Students are expected to be punctual. Please, do respect the class and your classmates.

**5.- ASSESSMENT**

The World Business and Economic History (WBEH) course will be assessed as follows:

1. Written examination (60%)
2. Coursework (40%)
   2.1 Essays (worth 10% and 15%). Two written essays that should not exceed 1,000 words. Essay questions, instructions, and submission deadlines will be given.
   2.2 Tests (worth 5% each). Two multiple-choice tests.
   2.3 Participation (5%). Students are expected to actively participate in lectures and seminars. Attendance and participation will thus be assessed.
Plagiarism is defined as the act of “stealing ideas or passages from (another’s work) and present them as one’s own” (Collins Dictionary for the 21st century). It is important to develop the appropriate writing skills, hence copying and quoting from a textbook or an academic paper must be referenced. Plagiarism is unacceptable. A mark of zero will be awarded if plagiarism is detected. Copying from another’s work or using cribs in the final exam is dishonest and thus unacceptable. Copying or using cribs in the final exam will be penalised, and the penalties are severe within the Universitat de València.

Students must obtain a mark of 5 (out of 10) in the exam to pass this course. Then, the exam and coursework marks will be summed up to obtain the course grade. Those students who do not pass the written exam will be awarded the exam mark as final grade.

Students who did follow this course previously could choose between:

(a) Following the course.

Therefore: Course grade = Coursework (40%) + Written exam (60%)

(b) Writing two essays (worth 20% each).

Therefore: Course grade = Essay 1 (20%) + Essay 2 (20%) + Written exam (60%)

Those students who decide to take option (b) must let the module leader know during week 1.
